

Surface Mount Distribution Block

1 Circuit, 1000A, 8 3/8” SS18-8 Stud Connectors

Protect connections against corrosion. These bars are tin-plated copper and have stainless steel terminals. Also known as bus bars, they serve as connection points between wires with ring or spade terminals. The underside is sealed, so the bars can be safely mounted to conductive surfaces. Covers protect the top of the bar and prevent accidental contact with live circuits.

Specifications

Number of Circuits	1
Current	
60V AC	1000A
60V DC	1000A
Stud Terminals	
Number Per Circuit	8
Size	3/8" - 16
Length	8"
Width	4"
Height	2 - 1/8"
Base Material	HDPE
Bus Bar Material	Tin-Plated Copper
Terminal Material	18-8 Stainless Steel
Min. Temperature	-94°F (-70°C)
Maximum Temperature	230°F (110°C)
Features	Lexan Cover
Mounting Location	Base Surface
Mounting Fasteners Included	No
Mounting Pilot Holes	
Diameter	1/8"
Number of	4
Center-to-Center Length	7.07"
Center-to-Center Width	3.23"
Specifications Met	Status
RoHS	Compliant
REACH	Compliant
DFARS	Specialty Metals COTS-Exempt
Country of Origin	United States of America
USMCA Qualifying	No
ECCN	EAR99
ABYC	Compliant
USGC	Compliant
UL Listed	No
